

## Company Profile

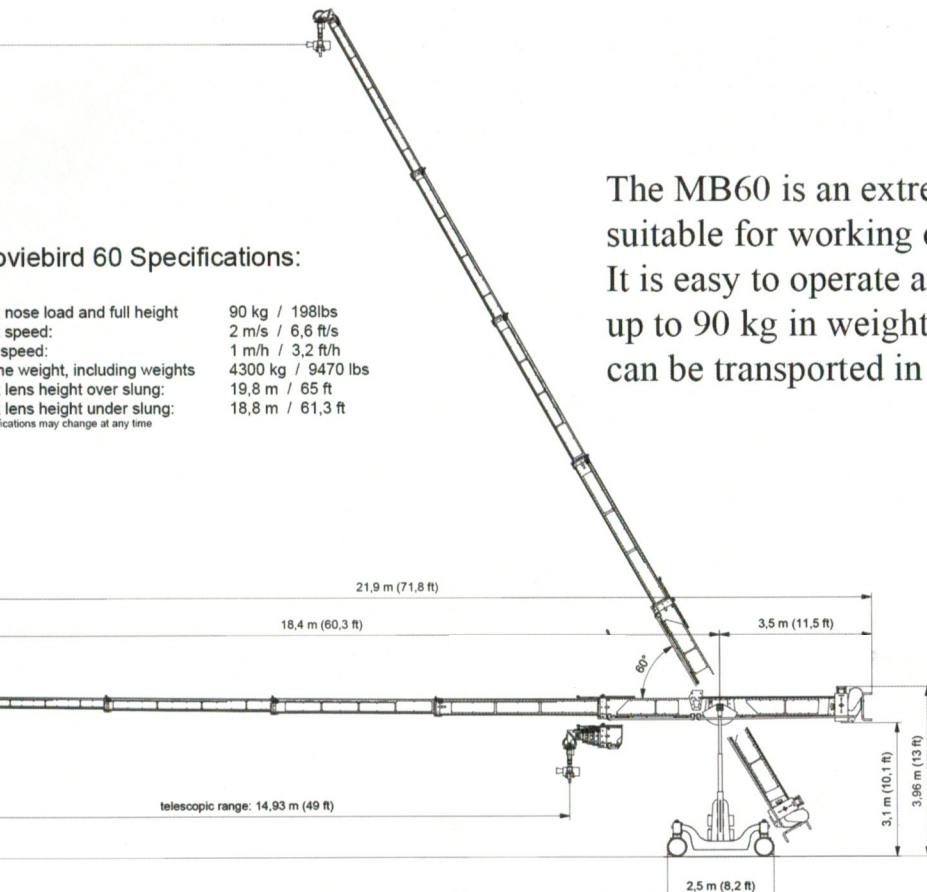

MovieBird manufactures high-tech telescopic camera cranes for film and TV production. Modern and advanced solutions make our company one of the world's leading manufacturers. A wide range of products allows us to customize our products to the client's needs. Well-known film producers and camera operators all over the world value our products. We are open to new ideas and challenges.

### MB60 (60 feet = 18,4 m)

The MB60 is an extremely versatile telescopic camera crane suitable for working on any film set, TV studio or sports arena. It is easy to operate and will carry all types of camera packages up to 90 kg in weight. Despite the MB 60's reach of 60 ft plus it can be transported in a standard 16 ton truck or a bespoke trailer.
